ABSTRACT

Higher Education enrollment data for fall 1977 in Montana are summarized and compared with the previous year. The number of students in degree credit programs has increased since 1976, with 86 percent of enrollees attending campuses of the Montana University System, 10 percent in private colleges, and 9 percent in community colleges. Statistics are reported showing this distribution. Also shown is distribution by class, campus, and sex; transfer students; first-time students; in-state versus out-of-state students; part-time versus full-time enrollment; and full-time-equivalent students. ENROLLMENT IN HIGHER EDUCATION INSTITUTIONS IN THE STATE OF MONTANA, FALL 1977

Enrollment information is collected by the Commissioner of Higher Education from each college and university within the State of Montana. This report summarizes those data for Fall 1977 and makes some comparisons with the previous year.

Fall enrollment of students in degree credit programs in higher education institutions in the State of Montana in 1977 increased from the previous year. Table 1 shows these data.

Table 1. Total enrollment in higher education institutions in the State of Montana, Fall 1976 and 1977

	Fall enrollment		Change	
	1976	1977	Numerical	Percent
Montana University System	24,195	24,863	+ 668	+ 2.8
Private colleges	3,049	3,115	+ 66	+ 2.2
Community Colleges	2,829	2,818*		
Total	30,073	30,796		

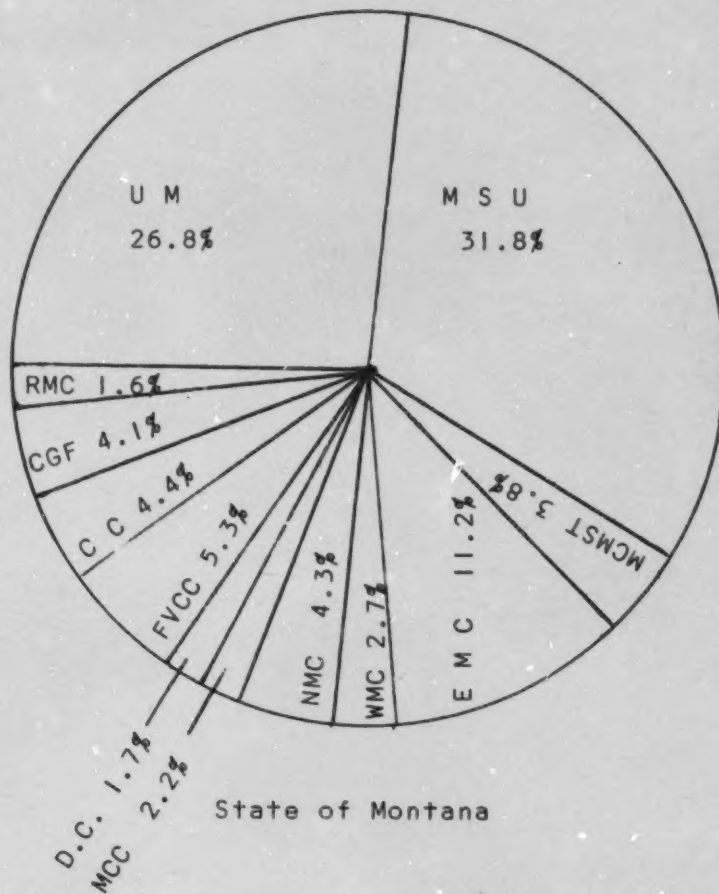

* In 1977, an additional 631 students were enrolled in community service, non-credit courses at Dawson College and Miles Community College. The data previously compiled have not been adjusted to remove similar non-credit enrollments; since the data are not comparable percent calculations are not made.

81% of the enrolled students attend campuses of the Montana University System, while 10% attend private colleges and 9% enroll in community colleges.

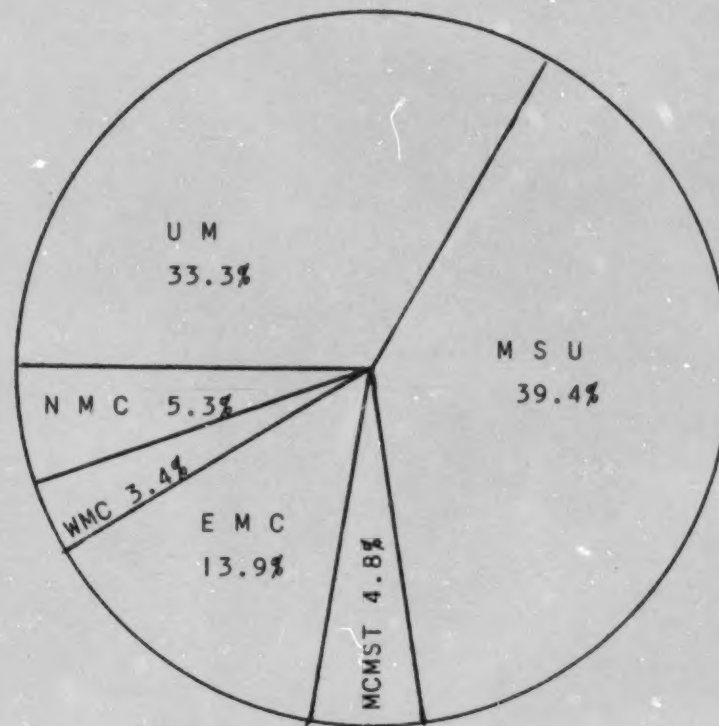

Montana State University accounts for the largest percentage of students in the Montana University System and in the state.

Figure 1.

Changes in enrollment patterns are not similar for all institutions in the state. Table 2 shows the institutional changes between the two years.

Table 2. Comparative Institutional enrollments, Fall 1976 and Fall 1977

^aAn additional 307 students are enrolled in community service, non-credit courses which, in prior years, were not separately reported.

^bAn additional 206 students were enrolled in community service, non-credit courses in 1976.

^cAn additional 324 students are enrolled in community service, non-credit courses in 1977.

^dData are not comparable; thus, calculations have not been made.

From Table 2, one can observe that enrollment decreased at one campus of the Montana University System and at one private college. These enrollment patterns seem similar to advance estimates of national enrollments which are anticipated to increase 2 - 3%.

Distribution by campus

Since 1972 there has been some change in the proportion of total enrollment at the campuses within the Montana University System. Table 3 shows these changes.

Table 3 demonstrates that the percent of the total system students has been increasing at all campuses except the University of Montana and Western Montana College.

Distribution by class

Changes in the distribution of enrollments by class may be important to future planning by institutions of higher education. Table 4 provides a comparative summary for the two most recent years.

* Not comparable data

The number of graduate degree candidates decreased between the two years within the Montana University System and the number of unclassified students increased.

Distribution of enrollment by sex

Males account for 52.4% of the students enrolled in higher educational institutions in Montana while females account for 47.6%. Table 5 portrays these data by Institution for Fall 1976 and Fall 1977.

In the private and community colleges, a larger percent of the students are female than in the Montana University System.

Transfer students

Transfer students constitute a large segment of the enrollment in institutions of higher education in Montana as they do nationally. Table 6 shows the enrollment of transfer students in Montana for the years 1976 and 1977.

In both 1976 and 1977 the Montana University System received more transfer students from other Montana Institutions than it lost to those Institutions, while the private colleges received fewer transfer students than they donated to other Montana Institutions.

In-State versus out-of-State Enrollment

Out-of-state enrollment accounts for 19% of the total enrollment of institutions of higher education in Montana.

Table 8 shows these data by institution for 1976 and 1977.

In-state enrollment varies from 69% to 95% of the total enrollment among the campuses of the Montana University System. In the Montana University System as a whole, the percent of out-of-state students has remained at 19% for the two years.

First-time students

Students entering higher educational institutions for the first time are separately reported. From Fall 1976 to Fall 1977, there was an overall increase of 605 or 9.2%. The out-of-state first-time freshmen decreased slightly (24 students or 2.4%) while the in-state first-time freshmen enrollment increased 569 or 10.3%. Table 9 shows these data by institution.

Within the Montana University System, the University of Montana and Northern Montana College show decreases in total numbers of first-time freshmen between the two years as well as a decrease in number of in-state first-time freshmen. All campuses of the system except Montana State University and Montana College of Mineral Science & Technology show decreases in the number of out-of-state first-time freshmen.

Part-time versus full-time enrollment

Part-time enrollment, exclusive of Continuing Education programs, has gradually become a more significant portion of the enrollments until in 1977 it accounts for 22% of the total enrollments of all institutions of higher education in Montana. Table 10 shows these data while Figure 2 displays the information graphically.

The proportion of part-time to full-time enrolments increased at all units of the Montana University System between Fall 1976 and Fall 1977, except at the University of Montana where it declined somewhat. Part-time students, excluding Continuing Education students, accounted for 16.5% of the total enrollment in the Fall of 1977.

Full-time equivalent students

For some purposes it is desirable to convert part-time students to full-time equivalents. To do so, a formula which equates 15 undergraduate student credit hours (or 12 graduate student credit hours) to one full-time equivalent student is used. Table II portrays these data for higher education institutions in Montana for the Fall of 1976 and 1977.

Full-time equivalent students for the fall semester are useful for some purposes, but for budgeting actions, a different statistic called the fiscal-year full-time equivalent student (FY FTE) is utilized. This statistic reflects enrollment for an entire year, including summer session.

Table 12 shows a historical summary of fiscal-year full-time equivalent students.

Table 12. Fiscal-year full-time equivalent enrollment, Montana University System
1972-73 -- 1976-77

1976-77	8,057	9,320	991	663	3,124	1,240

The total Montana University System fiscal-year full-time equivalent students has increased from 22,662 in 1972-73 to 23,348 in 1976-77.

A consolidated enrollment report is attached which provides greater detail.

Consolidated Enrollment Report

The reports which are contained in this appendix present enrollment data for all institutions of higher education in Montana.

Definitions applicable to these reports are:

Total enrollment: The number of individuals enrolled during the academic period.

Part-time student: A part-time student in Montana is one taking less than 12 undergraduate credit hours or 9 graduate credit hours, for reporting purposes.

Full-time student: A full-time student in Montana is one taking 12 or more undergraduate credit hours or 9 or more graduate credit hours, for reporting purposes.

First-time beginning freshman: One who entered higher education for the first time in the current semester, term, quarter or session.

Full-time equivalent student: 15 student credit hours for undergraduates and 12 student credit hours for graduates are considered a full-time equivalent student.

Out-of-state student: For purposes of this report, the home address of the student determines his residence category.

Prior to Fall 1977 enrollments were reported as of the end of the 5th week of classes; beginning Fall 1977 enrollments are reported as of the end of the 3rd week of classes.
